About the Role

Key Responsibilities

- Maintain end-to-end process knowledge and lifecycle oversight for assigned products.
- Lead tech transfers and launch readiness activities, ensuring seamless scale-up and compliance.
- Develop and execute validation strategies (process, cleaning, packaging) aligned with cGMP and regulatory standards.
- Provide technical support, risk mitigation, and cross-functional collaboration to ensure business continuity and quality.

Essential Requirements:

- BSc in Pharmacy, Pharmaceutical Technology, Chemistry, or an equivalent scientific degree; MSc desirable or equivalent experience.
- Fluent in English (oral and written).
- 2–3 years of experience in manufacturing, manufacturing science and technology (MS&T), technical development, or quality—ideally within GMP/GxP-regulated environments.
- Experience in GMP-regulated pharmaceutical manufacturing and MS&T.
- Strong skills in process validation, CPV, and statistical data analysis.
- Proven leadership in tech transfer and cross-functional project management.
- Excellent documentation and compliance mindset.
