About the Role

Key responsibilities:

- Technical Release and Market Release (Certification) of secondary packed drug product batches (FDF batches) for commercial purposes.
- Tasks of a Qualified Person in accordance to the "Arzneimittelbetriebsordnung (AMBO) 2009" and Annex 16 to Volume 4 of the EU Guidelines for Good Manufacturing Practice for Medicinal Products for Human Use.
- Lead and oversee critical negotiations with internal and external stakeholders to secure compliant, timely outcomes.
- Provide people leadership (coaching, performance management, capability building) to drive a strong quality culture.
- Manage technical operations execution, ensuring effective day-to-day quality support and issue resolution.
- Collaborate across functions and boundaries to align on priorities, risks, and delivery commitments.
- Participation in escalations, recalls, critical complaint investigations, deviations, evaluation of process changes
- Plan and deliver projects to agreed quality, scope, and timelines; ensure readiness for key milestones.
- Ensure inspection and audit readiness; coordinate responses and drive timely, sustainable CAPAs. Support preparation of and participation in audits and inspections
- Maintain and improve Quality Management System processes to meet cGMP and GxP requirements.
- Oversee release management activities to ensure compliant disposition decisions and documentation quality.
- Report technical complaints, adverse events, and special case scenarios related to Novartis products within 24 hours of receipt.
- Coordinate distribution of marketing samples (where applicable) in accordance with applicable procedures and compliance standards.

Essential Requirements:

- Proven experience in Audit and Inspection Management, including inspection readiness and follow-up actions.
- Strong working knowledge of cGMP and broader GxP requirements within a regulated environment resulting in strong decision making skills.
- Hands-on experience with Release Management and compliant batch disposition processes.
- Solid expertise in Quality Management Systems (QMS), Quality Assurance, and Quality Compliance.
- Background in Technical Operations with strong technological aptitude and a focus on continuous improvement.
- Demonstrated people leadership capability with sound decision-making (correctly interprets analyses and evaluations and correctly identifies which measures should be taken) in a patient-focused environment.
- Strong collaboration, communication, problem-solving, and ability to navigate ambiguity effectively.

- High commitment to data integrity and digital proficiency; fluent English required.
