

OT Automation Engineer

Job ID

REQ-10077601

May 12, 2026

LOC_IT

About the Role

Key Responsibilities:

- Responsible for detailed design, development, delivery and qualification of IT/OT system solutions and their integration for a given project / use case, in alignment defined solution architecture, and create the detailed process designs necessary to operate the solution on a day-to-day basis.
- Execute project related activities in accordance with the lifecycle, budget, schedule and compliance requirements.
- Collaborate with internal and external stakeholders to deliver technical solutions to manufacturing sites.
- Ensure designs produced adhere to solution architectural design, roadmap and support the development, execution and operations of software/service
- Facilitate peer reviews and obtain business sign-off for detailed designs.
- Consider the overall user experience when designing and implementing solutions and services.
- Take accountability for adhering to Security and Compliance policies.
- Support internal and external audits, if necessary.
- Maintain stable operations for implemented global IT/OT solutions
- Contribute relevant inputs to the business case development process.

Essential Requirements:

- 5+ years of technical experience in delivering global solutions to the customers, preferably in the area of automation engineering in pharmaceutical manufacturing processes.
- Knowledge of state of the art IT/OT infrastructures and architectures, IT/OT applications & tools.
- Knowledge of automation technologies and software platforms (e.g. SCADA, Historian, MES).
- Knowledge of industry standards and protocols for communication and data exchange in manufacturing operations (e.g. OPC, MQTT).
- Understanding of manufacturing operations and processes, with strong ability to leverage digital technology / big data.
- Excellent communication skills in English and Italian, with strong collaboration skills across boundaries and a curious mindset.

Desirable requirements:

- Working experience in a GxP environment.
- Experience in robotics.

Commitment to Diversity & Inclusion:

We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.
