

Senior Supply Chain Manager

Job ID

REQ-10078283

May 22, 2026

LOC_IN

About the Role

Major Accountabilities

- Lead and drive end-to-end project execution, ensuring milestones, quality, timelines, and budget adherence.
- Represent the unit in cross-functional/global teams and ensure effective stakeholder coordination.
- Establish and maintain governance processes to ensure compliance with Novartis and regulatory standards.
- Drive strategic planning and execution in partnership with Unit Head to meet current and future business needs.
- Manage resources effectively, including allocation, constraints handling, and cost optimization initiatives.
- Mentor and coach team members globally, supporting capability building in technical and leadership areas.
- Lead SOP development/review and ensure adherence to quality, compliance, and continuous improvement standards.
- Act as a facilitator/mediator in complex situations, driving issue resolution, risk mitigation, and process improvements.

Minimum Requirements

- Proven experience in leading cross-functional projects and driving execution in a matrix/global environment.
- Strong exposure to stakeholder management and organizational representation at senior levels.
- Demonstrated people leadership and mentoring experience, including coaching and team development.
- Experience in project/program management, supply chain, or clinical operations within regulated industries.
- Solid understanding of compliance, quality standards (e.g., GMP), and continuous improvement frameworks.
- Minimum 15+ years' experience in supply chain

Role Requirements

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives.
