

Production Technician I (Weekday PM)

Job ID

REQ-10078245

May 27, 2026

LOC_US

About the Role

Key Responsibilities:

- Manufacture radioligand therapy products by following batch instructions and maintaining strict aseptic discipline.
- Operate and maintain Grade A isolators to meet safety, quality, and key performance indicator targets.
- Follow radiation safety requirements and comply with all state, federal, and Novartis guidelines.
- Complete required training in Standard Operating Procedures, aseptic technique, gowning qualification, and Health, Safety, and Environment.
- Clean production cells manually and sterilize isolators to ensure production readiness.
- Perform routine and dynamic environmental monitoring per procedure and document results accurately.
- Prepare materials, maintain identity and traceability, and update the batch monitoring system as required.
- Execute work in alignment with current Good Manufacturing Practice and site quality standards.
- Support qualification and validation activities; contribute to deviation investigations and inspection readiness.
- Prepare and maintain batch records, shipping documentation, and training materials to ensure compliant operations.

Essential Requirements:

- Bachelor's degree in relevant Engineering or Scientific discipline is highly preferred; If the applicant does not have a degree, a minimum of 1+ year' of experience in cGMP or aseptic environment is required.
- Working knowledge of current Good Manufacturing Practice for sterile or aseptic manufacturing environments.
- Ability to follow United States Food and Drug Administration guidance relevant to aseptic manufacturing.
- Ability to gown aseptically and work extended periods in a Grade C cleanroom environment.
- Strong attention to detail and ability to complete batch records and controlled documentation accurately.
- Near vision equivalent to 20/20 with no color vision impairment; corrective lenses permitted.
- Ability to lift or carry up to 35 pounds and perform hands-on production tasks.
- Reliable teamwork and communication skills to succeed in a fast-paced, shift-based schedule.

Desirable Requirements:

- Radiopharmaceutical manufacturing experience preferred, especially in aseptic or cleanroom operations.
- English proficiency for reading, writing, and speaking in a regulated manufacturing environment.

Novartis Compensation and Benefits:

The salary for this position is expected to range between \$25.19/hr. and \$46.83/hr.

The final salary offered is determined based on factors like, but not limited to, relevant skills and experience, and upon joining Novartis will be reviewed periodically. Novartis may change the published salary range based on company and market factors.

Your compensation will include a performance-based cash incentive and, depending on the level of the role, eligibility to be considered for annual equity awards.

US-based eligible employees will receive a comprehensive benefits package that includes health, life and disability benefits, a 401(k) with company contribution and match, and a variety of other benefits. In addition, employees are eligible for a generous time off package including vacation, personal days, holidays and other leaves.
