

Analytical QC & AS&T Expert

Job ID

REQ-10078785

May 28, 2026

LOC_IT

About the Role

Major Accountabilities:

- Lead and ensure execution of AS&T laboratory activities, aligning with plans, priorities, and production needs.
- Develop, validate, transfer, maintain, and monitor analytical methods throughout their lifecycle, in collaboration with TRD and external partners.
- Oversee analytical method transfers (TRD, sites, third parties) and support troubleshooting, investigations (OOS, deviations), and CAPA implementation.
- Ensure compliance with GMP, GLP, QMS, pharmacopoeia standards, and regulatory dossier requirements.
- Plan and coordinate QC & AS&T analytical activities, including stability studies, method performance monitoring, and risk management initiatives.
- Evaluate, implement, and qualify new technologies and laboratory equipment according to regulatory and company standards.
- Provide technical and analytical support to QC, including investigations and continuous improvement projects for quality, safety, and efficiency.
- Ensure proper documentation, SOP management, training, safety practices, stakeholder collaboration, and effective communication across internal and external teams.

Essential Requirements:

- Master degree in pharmacy or chemistry, or broad experience in QC environment.
- Fluent in Italian. Good knowledge of English.
- At least 5 years in Quality Control department within the pharmaceutical industry.
