

Neuroscience Regional Director – East

Job ID

REQ-10085056

Aug 03, 2026

LOC_US

About the Role

Key Responsibilities:

- Build best-in-class, diverse teams through talent acquisition, development, and succession planning.
- Delivering region sales targets while collaborating nationally, to secure achievement of organizational objectives and establish a cadence of accountability for the team, communicating, and supervising KPIs and engaging all levels of performance on the team.
- Sets an example for all team members by fostering a collective vision, articulating clear expectations, cultivating a sense of accountability, empowering others to act, and enhancing or improving processes by questioning the current norms.
- Create, execute, and oversee a regional business plan focused on customer needs in partnership with Area Business Leaders and cross-functional teams to enhance customer experience and increase product demand among all healthcare providers (HCPs), key accounts, and Systems of Care (SoC).
- Act as an integral part of the national leadership team, actively aiding in the enhancement of regional capabilities, business performance, team growth, and organizational culture.
- Ensure that teams carry out their duties with honesty, utmost professionalism, and integrity, in alignment with the Novartis Code of Ethics and all relevant policies and procedures.
- Promote regional budget allocation and enhance regional budgets by guaranteeing the use of various resources, including strategic face-to-face interactions and Omni Channel resources, customized to meet regional needs.
- Fosters an environment where team members are motivated to voice their ideas, address challenges, collaborate, experiment, and view failures as steppingstones, while ensuring that the entire team is aligned with and committed to the NPC Code of Ethics and all relevant policies.
- Support team members by crafting development plans, nurturing their growth, and continually improving their performance.
- Utilize analytics platforms to guide decision-making and pinpoint areas of risk and potential.

Essential Requirements:

- Bachelor's degree required from 4-year college or university.
- 10+ years' experience of diverse commercial pharmaceutical, biotech, healthcare, or similarly structured industries with large, geographically dispersed sales teams. We also welcome candidates from other complex sales environments such as medical devices, diagnostics, life sciences services, insurance, consumer health, or B2B sectors, especially where strong field leadership and customer engagement are central to success.
- 5+ years' experience as a first-line sales manager with strong critical thinking and enterprise attitude (e.g., including but not limited to brand management, market access, or account leadership experience).
- Experience managing field organizations through change, innovation, or growth is highly valued.
- Demonstrated success in driving sales performance, leading cross-functional teams, and executing strategy within matrixed, multi-regional environments.
- Proven track-record of attracting, developing, and retaining diverse talent and building dedicated teams, with strong cross-functional leadership abilities to collaborate effectively with various groups and cross-functional partners.
- Built and completed business and incentive plans in highly sophisticated sales environments, has demonstrated operational skills, solid financial and business acumen, and has strategic and analytical thinking demonstrated by key projects/initiatives and managing budgets.

- Candidate must reside within region, or within a reasonable commuting distance to and from a metropolitan airport. Ability to travel 60-80% over a broad geography is required, with the ability to drive and/or fly within the territory. Must have a valid driver's license.

Desirable Requirements:

- Proven leadership as a second-line sales manager.
- Experience in a cross-functional role such as market access, reimbursement, or account management; and understanding of payer landscapes, buy and bill and specialty pharmacy.

Driving is an Essential Function of this Role: Meaning it is fundamental to the purpose of this job and cannot be eliminated. Because driving is an essential function of the role, you must have a fully valid and unrestricted driver's license to be qualified for this role. The company provides reasonable accommodations for otherwise qualified individuals with medical restrictions if an accommodation can be provided without eliminating the essential function of driving.

COVID-19 Vaccine Policy (customer-facing roles only): While Novartis does not require vaccination for COVID-19 or proof of a recent negative test result for COVID-19 at this time, employees working in customer-facing roles must adhere to and comply with customers' (such as hospitals, physician offices, etc.) credentialing guidelines, which may require vaccination. As required by applicable law, Novartis will consider requests for reasonable accommodation for those unable to be vaccinated. This requirement is subject to applicable state and local laws and may not be applicable to employees working in certain jurisdictions. Please send accommodation requests to Eh.occupationalhealth@novartis.com.

For Field Roles with a Dedicated Training Period: The individual hired for this role will be required to successfully complete certain initial training, including home study, eight (8) or fewer hours per day and forty (40) or fewer hours per week.

Novartis Compensation Summary:

The salary for this position is expected to range between \$204,400 and \$379,600 per year.

The final salary offered is determined based on factors like, but not limited to, relevant skills and experience, and upon joining Novartis will be reviewed periodically. Novartis may change the published salary range based on company and market factors.

Your compensation will include a performance-based cash incentive and, depending on the level of the role, eligibility to be considered for annual equity awards.

US-based eligible employees will receive a comprehensive benefits package that includes health, life and disability benefits, a 401(k) with company contribution and match, and a variety of other benefits. In addition, employees are eligible for a generous time off package including vacation, personal days, holidays and other leaves.

Role Requirements

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives.
