LOC_IN

About the Role

Key Responsibilities

- Support product roadmap development, prioritization, and value realization.
- Lead business discovery workshops and translate business requirements into actionable product features and user stories.
- Facilitate governance forums, steering committees, and stakeholder decision-making processes.
- Manage program plans, risks, dependencies, action items, and status reporting.
- Coordinate onboarding of markets, brands, and digital assets to the Digital Trust platform.
- Develop executive presentations, business cases, and progress reports.
- Track adoption, compliance, and operational KPIs to drive continuous improvement.
- Partner with cross-functional stakeholders to ensure alignment and successful delivery.

Essential Requirements

- 7-9 years of experience in Product Management, Business Analysis, Program Management, Digital Transformation, or related disciplines.
- Demonstrated experience managing enterprise digital platforms or compliance-driven programs.
- Strong stakeholder management, facilitation, and communication skills.
- Experience working with Agile delivery methodologies and product management practices.
- Knowledge of consent management, privacy, data governance, or trust platforms (preferred).
- Experience with OneTrust, Salesforce ecosystem, Customer Data Platforms, or similar digital engagement technologies is a plus.

Desirable Requirements

- Effective governance and decision management.
- Successful onboarding and adoption of Digital Trust capabilities.
- High-quality requirements and product documentation.
- Timely delivery of program milestones with proactive risk management.
- Measurable improvements in consent governance, compliance, and operational efficiency.
