About the Role

Key Responsibilities

- Serve as primary point of contact between Novartis and clinical trial sites, ensuring strong, collaborative partnerships
- Manage assigned Phase I–IV study sites in compliance with protocols, monitoring plans, and regulatory requirements
- Conduct site initiation visits to ensure site teams are fully trained on study protocols and expectations
- Deliver ongoing training for amendments and new site personnel to maintain compliance and consistency
- Perform on-site and remote monitoring activities to ensure patient safety, data integrity, and protocol adherence
- Proactively assess site performance, identifying risks and implementing mitigation strategies to improve outcomes
- Identify process gaps and collaborate with sites to drive continuous improvement and operational excellence
- Promote a strong compliance culture, ensuring adherence to ethical standards, regulations, and data privacy requirements
- Build strong site relationships to enhance patient recruitment and reduce operational challenges
- Lead site closeout activities, ensuring completion of follow-up actions and proper documentation and archiving

Essential Requirements

- Bachelor’s degree in a scientific or healthcare-related discipline
- Minimum 1 year of experience in clinical research
- Understanding of clinical trial processes, including Good Clinical Practice and International Council for Harmonization guidelines
- Knowledge of applicable regulatory requirements and standards, including global and local health authorities
- Strong communication and relationship-building skills to effectively collaborate with clinical trial sites
- Ability to manage multiple priorities, demonstrating strong organization and time management skills
- Analytical and risk-based thinking with the ability to identify issues and implement effective mitigation strategies
- Fluency in written and spoken English and the local language

Desirable Requirements

- Strong understanding of the drug development process and clinical research methodologies
- Monitoring or site management experience strongly preferred

Benefits & Rewards

At Novartis, we’re committed to reimagining medicine together - and rewarding the people who make it happen.

Expected Annual Base Salary Range for role: 32,690 - 60,710 GBP Annual

The base salary offered is determined based on gender-neutral objectives, such as relevant skills, competencies and experience in accordance with the Novartis pay setting policy and upon joining Novartis will be reviewed periodically.

The rewards of being part of our team go far beyond base pay and incentives. We also offer a variety of competitive benefits in kind to help you thrive personally and professionally, such as insurance plans, retirement plans, wellbeing resources and

global recognition programs. In addition, we provide flexible and hybrid working options, where possible, and minimum 14 weeks paid parental leave.

In addition to your base salary, you may be eligible for a performance-based bonus depending on certain performance parameters.

Pay equity is a fundamental principle of our employment policy and reflects our commitment to create a diverse, equitable and inclusive environment that treats all employees with dignity and respect, as outlined in our Code of Ethics.

Read our brochure to learn more about our global total rewards offering:
